WORK EXPERIENCE

BPG Advertising - Interactive Research Intern

Los Angeles, CA | May 2018 - Aug 2018

- Researched big brand names and ideated advertising campaigns
- My main responsibility was to put together research documents for campaigns that needed insight
- Some research for pitches I have done were for Funimation and Amazon

BU Gifts & Records Dept. - Data Entry Assistant

Boston, MA | Sep 2018 - Present

- Edit, check, and enter in data of BU alumni in a Blackbaud CRM database. This includes going over information from postal mail, excel files, and online data
-

EXTRACURRICULARS

TechTogether Boston - Website Chairperson

Boston, MA | Mar 2018 - Present

- Creating both a main and live website in a team of five for TechTogether Boston's 2019 hackathon
- Responsible for front-end website development and mobile responsiveness
- Update the website with new information and pages when needed

Personal Finance Club - VP of Marketing

Boston, MA | Jan 2018 - Present

- Promote monthly events, brainstorm social media content, collaborate with other E-board members, and create both promotional material and social media content

PROJECTS

Autonomous Car

Oct 2017 – April 2018

- Worked in a team of nine students and a professor to develop an autonomous RC car
- My main task was to use C and work with a partner to develop various different functions of the RC car.

Collegiate Economics Forum

Nov 2018

- Worked on a simple website for the Collegiate Economics Forum, a student based website for economic articles
- Given a design, I recreated the design using HTML and CSS with mobile responsiveness

Current Learning Objectives: UX/UI Design, Sass, Node.js, React.js, SQL
